

Idil Isil Yildirim

+90 555 007 3956 | idilisilyildirim@gmail.com

EDUCATION

Hong Kong University of Science and Technology (HKUST)

Exchange Student

2025

Hong Kong

- Completed a 4-month exchange program focused on computer science and engineering

Sabanc University

B.Sc. in Computer Science and Engineering

Sep. 2023 – Jun. 2027

Istanbul, Turkey

EXPERIENCE

TU Delft

Software Engineering Intern

Summer 2025

Delft, Netherlands

- Worked within the Software Engineering Research Group on research-driven software projects
- Contributed to development and analysis tasks using Java, Python, and C++
- Collaborated on an academic research paper currently under submission

TÜBTA BİLGEM

Intern

Jan. 2024

Turkey

- Gained hands-on experience in hardware, software, and embedded systems development
- Applied Agile and Scrum methodologies to manage development tasks
- Supported software development processes using Python and C++

Sabanc University

Learning Assistant

Dec. 2022

Istanbul, Turkey

- Facilitated collaborative learning sessions for undergraduate students
- Provided academic support aligned with course curriculum

PROJECTS

AR-Supported Lecture Experience for Inclusive Education

2025

AR / XR System Design Project

- Designed an AR-supported educational system to enhance information processing under cognitive load constraints

Human-Robot Interaction for Disaster Management

2025

HRI System Design Project

- Designed a human-in-the-loop emergency response system integrating autonomous robotics and AI-based decision support for wildfire scenarios

War and Immigration in Graphic Novels

2023

Research Project

- Conducted literature review on representations of war and immigration in graphic novels
- Analyzed narrative and visual storytelling techniques
- Used Python and Excel for data categorization and trend analysis

SKILLS

Programming Languages: Python, C++, Java, C, SQL, Bash (Shell Scripting), HTML/CSS

Core Computer Science: Data Structures, Algorithms, Time & Space Complexity, Recursion, Hash Tables

Software Engineering: Version Control (Git), Modular Programming, Debugging, Unit Testing (basic)

Operating Systems: Linux (command-line), Process Scheduling Concepts

Research & Engineering: Requirement Engineering, Experimental Design, Data Analysis with Python

Languages: Turkish (Native), English (Fluent)
